Let yourself be captivated by the old world charm of Classic-Craft Rustic Collection fiberglass entryways. They'll never split, crack or rot like wood and they offer five times the insulating value of wood – a big advantage in the warmer climates where these architectural styles are so popular.

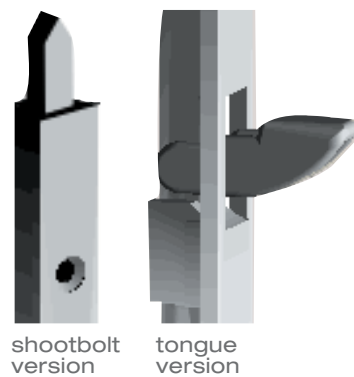

Glass Privacy Rating

As you'll see in this catalog, we've matched the appropriate glass options with each of our fiberglass and steel door families. Many of Therma-Tru's decorative glass styles use various types and textures of glass within their designs. These designs offer varying levels of privacy based on the textures used. We have created a 10 point glass privacy rating scale to determine the amount of privacy offered by a particular glass design. A glass design rated 1 offers no obscurity and a design rated 10 offers the maximum amount of privacy.

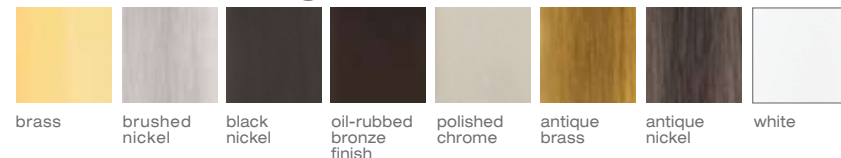

Multi-point locking system

Adds greater security and stability for enhanced door system performance. Stainless steel construction resists rust and corrosion.

Handleset and Hinge finishes

NOTE: multi-point locking systems are highly recommended for 8' and double door applications.

Glass (C)

Sidelite:
CCA3400SL
Clear Glass

Villager™

Its geometric-inspired pattern brings together gray antique glass, clear bevels, hand-blown style glass, clear, and bronze water glass for an artisan look.

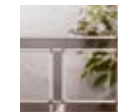

brushed nickel (C)

Homeward™

Linear shapes exemplify this Prairie-style look. Homeward combines clear bevels, seeded glass and gray antique glass.

brushed nickel (C)

Dentil Shelves

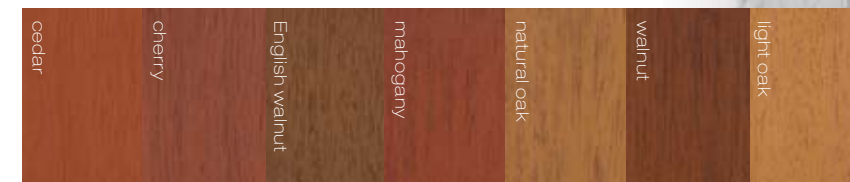

4-block dentil shelf

Add an optional 4-block dentil shelf for a more historically-correct door. Dentil shelves have the same detailed graining and durable fiberglass as the Classic-Craft® American Style Collection™ door.

Therma-Tru Stain Colors

Color chips shown are featured in oak grain. Colors shown may vary from actual application due to fluctuations in staining or in the printing process.

- the look of vertical grains and craftsman styling
- can be stained or painted, just like a wood door
- an optional multi-point locking system for enhanced security
- a full system limited lifetime warranty*
- 2 1/2" of height trimmability without rerailing
- solid wood edges and sturdy full-length lock stile
- flush-glazed glass assembled directly into the door panels

LIMITED LIFETIME WARRANTY

* For complete details on our full system warranty, see your nearby Therma-Tru dealer or visit www.thermatru.com.
** Only Available in square top doors

LIMITED LIFETIME WARRANTY

* For complete details on our full system warranty, see your nearby Therma-Tru dealer or visit www.thermatru.com.

Arcadia™ Glass (C)

Bella™

A graceful, European-inspired design with delicate accents that provide an elegant look. Large, clear bevels surround an embedded arch to allow natural sunlight in while increasing curb appeal. Clear baroque, seeded glass and rain glass add drama to the design. Choose from granite or bronze water glass accents to express your personal style.

bronze water glass
black nickel (B-1D)

granite glass
black nickel (G-1D) bronze water glass
brushed nickel (B-1C) granite glass
brushed nickel (G-1C)

Longford™

Granite and seeded glass create an elegant design reminiscent of Gaelic heritage. Choose from either brushed nickel or black nickel caming.

Sidelite: CC2060SL
Arcadia™ Glass (C)

Door: CC76
Sidelite: CC2276SL
Cambridge Glass (A)

Arcadia™

Gray-tinted baroque glass complements the irregular air bubbles of seeded glass in this dramatic design.

brass (A) brushed nickel (C) black nickel (D)

Provincial™

The symmetrical diamond design in the Provincial glass pattern is surrounded by shimmering double water glass and bordered with gray-tinted baroque glass.

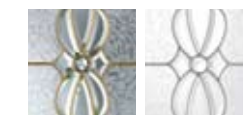

brass (A) brushed nickel (C) black nickel (D)

Cambridge

Clear, curved beveled glass creates a graceful design with brass or brushed nickel caming that's set amid crystalline glue chip glass. The Cambridge glass pattern is enhanced with a double water glass border.
